ChEMBL walkthrough: webinar

Louisa Bellis [1]  
Chemical biology  
Beginner  
0.5 hour

Louisa Bellis presents this webinar on ChEMBL [2] - a manually curated chemical database of bioactive molecules with drug-like properties. This webinar took place on 22nd May 2015.

NB: These videos work best using Google Chrome and when viewed in full screen.

Find out about upcoming webinars [3].

Learning objectives:

- Discuss what ChEMBL is and what it can be used for  
- Evaluate some of the features and tools of ChEMBL

Your feedback

Please tell us what you thought about this course. Your feedback is invaluable and helps us to improve our courses and thus enhance your learning experience.

Contributors

Louisa Bellis [1]  

EMBL-EBI  
Chemical Content Curator

Louisa Bellis is the Chemical Content Curator for the ChEMBL group at the European Bioinformatics Institute. Louisa is also responsible for coordinating the outreach within the ChEMBL group. After completing a degree in chemistry with pharmaceutical and forensic Science, Louisa went on to study for a PhD in pharmacology at the University of Bradford. Her PhD was focused on the development of potential new drugs for the treatment of bladder cancer. Following this and prior to joining the EBI in 2009, Louisa worked for a not-for-profit company, training users on their drug toxicity and
metabolism prediction software.
