Europe PMC: get the most from literature searches

Michael Parkin [1]

- Literature
- Beginner
- 0.5 hour

With Europe PMC, a free biomedical repository and partner in PubMed Central International, you can search worldwide, life-sciences literature, including articles, books, patents, and clinical guidelines. In this webinar we will show how to use Europe PMC for effective literature research. We will cover searches by topic and author, advanced search options for building complex queries, and setting alerts for your topic to stay on top of the published literature.

This webinar was recorded on 14th June 2017. It is best viewed in full screen mode using Google Chrome. The slides from this webinar can be downloaded below.

If you want to learn more about Europe PMC try our Europe PMC: Quick tour [2] and our Europe PMC, programmatically [3] webinar.

See the EMBL-EBI training pages for a list of upcoming webinars [4].

This webinar is aimed at scientists with an interest in learning more about the Europe PMC and optimising their literature searches.

Learning objectives:

- Describe the types of information you can find in Europe PMC
- Perform keyword searches in Europe PMC
- Optimise searches using the advanced search options
- Define ORCID IDs and how they can be used in Europe PMC

Your feedback

Please tell us what you thought about this webinar. Your feedback is invaluable and helps us to improve our courses and thus enhance your learning experience.
