UniProt peptide search and publications view: webinar

Klemens Pichler [1]

- Proteins
- Beginner
- 0.5 hour

UniProt provides the scientific community with a comprehensive, high-quality and freely accessible resource of protein sequence and functional information. This webinar will guide you through the main updates and features on the UniProt website. It will introduce you to the new Peptide Search tool in the UniProt website; the new enhanced view of Publications in UniProt Knowledgebase entries and other important updates.

This webinar took place on 19th October 2016. The slides from this presentation can be downloaded using the link below.

This webinar is best viewed in full screen mode using Google Chrome.

See the EMBL-EBI training pages for a list of upcoming webinars [2].

Learning objectives:

- Describe how protein data is added to Uniprot
- Explore the peptide search tool in Uniprot
- Explore publications linked to Uniprot records

Your feedback

Please tell us what you thought about this webinar. Your feedback is invaluable and helps us to improve our courses and thus enhance your learning experience.
